

Graduate Certificate in Artificial Intelligence with Machine Learning
AIGC 5002 - Machine Learning and Deep Learning

Lab 2 and 3: Data Handling Revisions and Data Visualization

Please do not hesitate to ask me any questions throughout this lab.

Exercises:

1. Visualize the following dataset:

- Years: [2018, 2019, 2020, 2021, 2022]
- AI Research Papers Published: [1500, 1750, 2100, 2300, 2500]
- AI Applications Launched: [50, 75, 110, 150, 200]

2. Line Graph Exercise:

Months:
January, February, March, April, May, June, July, August, September, October, November, December
Average Temperature (°C):
-1.37, 19.28, 11.85, 23.94, 6.01, 8.57, 4.41, 29.00, 19.63, 23.24, 5.94, 3.40

- Create a line graph that represents the monthly average temperature for a year in a city of their choice.
- Plot this data on the y-axis against months on the x-axis.
- Customize the graph by adding a title and labels for the x and y axes.
- Add another city and a legend.
- Experiment with line styles and colors.

Enjoy!
